

This may not be the best thing for the ham. Line noise will kill me here as I live 300 feet from those line. and how problems with cable noise on 145.mc big time. I love DX and Im over 69yrs can't but all that new rig, with all those filters, if they will will work?? Most hams in our small city & line noise will kill ham radio for us.. 73"S K6JYG ham from 1960 and please dont kill us on the 435 band.
